

# EUPEC High Power Thyristors and Diodes

## EUPEC HIGH POWER THYRISTORS AND DIODES

### Thyristors

#### Features:

- Reverse Voltage up to 2800 Volts
- Metal Ceramic Package

#### Applications:

- DC Motor Control (for machine tools)
- Controlled Rectifier (for battery charging)
- AC Controllers (for temperature control)

Thyristor

### Diodes

#### Features:

- Reverse Voltage up to 4900 Volts
- Metal Ceramic Package

#### Applications:

- All Purpose Rectifier Diode
- Free-wheeling Diodes
- Industrial High Power Drives, and Medium Traction Applications

Diode

For quantities of 20 and up, call for quote.

## EUPEC HIGH POWER THYRISTOR AND DIODE PACKS

### Thyristors

#### Features:

- Reverse Voltage up to 1500 Volts
- Isolated Aluminum Baseplate

#### Applications:

- Soft Start for Induction Motors
- Input Rectifier for Inverter Drives
- Field Supply for DC Motors

### Diodes

#### Features:

- Reverse Voltage up to 1500 Volts
- Isolated Aluminum Baseplate

#### Applications:

- Soft Start for Induction Motors
- Input Rectifier for Inverter Drives
- Field Supply for DC Motors

For quantities of 20 and up, call for quote.
